

Perceive the difference

CD-1

compact disc player

The CD is a perfect balance between convenience, build quality, sound, and aesthetics. Its lush wooden front panel gives it deserved classic lines. The special valve circuit gives natural sound and great detail, and its construction is an exercise in logical design. This is an original design with a host of virtues that set it apart from the crowd. The stylish display has adjustable luminosity. The EI core transformers use special lacquers and construction to create a smooth, powerful, yet delicate sound. Exceptional timing and a deep wide soundstage creates analogue realism. This is already a modern classic, with virtue and innovation at its heart.

Specifications:

Total Harmonic Distortion + Noise	0.006% @ 1kHz
Frequency Response	(± 0.5 dB) 20-20,000Hz
Signal to Noise Ratio	> 100 dB (20-20000Hz)
Output Impedance	< 200 Ohms
Power	230V, 50Hz /45 Watts
Dimensions (W, H, D)	435 x 122 x 350 mm
Weight (net)	9,6 kg
Remote Control	Yes
